

HMI HOYME

MANUFACTURING INC.

Canadian Engineered Comfort

NEW! ELBOW MOTORIZED AIR CONTROL DAMPER

The Smarter Way to Ventilate and Zone Air control.
Designed for Efficiency. Built for performance.
Made in Canada.

Ideal For:

- * HVAC Contractors * Home Builders
- * Residential and Light Commercial Applications * New Builds & Retrofits * Zone Control

✓ FEATURES & BENEFITS

✓ Integrated Elbow Design

Easy to replace a standard Elbow with an upgraded motorized damper and elbow into one streamlined unit—saving time, space, and reduces installation complexity.

✓ Motorized Precision Control

An electronically controlled damper improves fresh air intake accuracy for better IAQ (Indoor Air Quality) and energy efficiency.

✓ Fully Adjustable

Positive seal or fully adjustable to accommodate your air flow needs.

✓ Compatible with HVAC Controllers

Easily connects with home automation, HRVs/ERVs, and smart thermostat systems.

✓ Heavy-Duty Canadian Build

Durable, insulated, and cold-weather tested — built to withstand Canadian climates.

✓ Reduces HVAC Load

It only opens when control air is needed — saving energy and extending system life.

✘ Why Contractors Choose HOYME:

- Time-Saving Installations
- Proven Reliability
- Local Support and Inventory

🍁 PROUDLY CANADIAN.

Support local. Trust local. Engineered and manufactured right here in Canada.
